05. Insights & Configuration

- ✓ Dashboard Analytics
- ✓ Module & Process Builder

Module Configurator

Tailor Your HR Ecosystem

Build Your Own HR Modules Instantly

Our powerful Configurator module delivers unmatched flexibility and control. Organizations can assemble and name new modules and processes on the fly, tailoring the system to specific business needs without relying on custom development.

Built on Object-Oriented Architecture

Benefit 1

Every screen and report is an independent object. Users can group these objects to form a brand-new module with its own name and access rights, seamlessly integrating it into the HR ecosystem.

Simplifying User Experience

Benefit 2

Assign personalized modules that contain only the functions needed for specific user groups or new recruits, making onboarding faster and reducing learning curves.

Eliminating Process Gaps

Benefit 3

Create process-specific checklists and streamline critical payroll or HR steps, ensuring compliance is maintained effortlessly.

Chat with us to discover how the Configurator can make your HR system adaptive, efficient, and future-ready.

Module Personnel Hub

The Core of Your
HR System

Keeping every employee record accessible & organized

At the heart of every HR solution lies the Personnel Hub, designed to centralize and safeguard all employee information in one secure, accessible place. It is the foundation upon which every other HR process is built.

03. Foundation for Integration

As the backbone of the entire HR ecosystem, it underpins every other module (Payroll, Attendance, Leave, Claim, Training, Performance), enabling smooth cross-module integration and data-driven decision-making.

01. Centralized Employee Records

Ensures that every employee detail, from personal information and employment history to job assignments, is captured, organized, and always up to date in one reliable source of truth.

02. Smarter Data Management

Enables HR to quickly access records, generate reports, and comply with statutory requirements, reducing duplication and minimizing errors across payroll, leave, and claims.

HR team gains a trusted, centralized, and future-ready foundation to manage your most valuable asset, your people.

Module Payroll Management

Accurate, Compliant, and On Time

Streamlined payroll workflows ensuring timely payments

Payroll is one of the most critical HR functions. KaiZen Payroll Management module ensures it is handled with precision, compliance, and efficiency every single time, strengthening employee trust while reducing administrative burden.

Streamlined Payroll Workflows:

Automates complex salary processing, allowances, overtime and deductions, both statutory and non-statutory, minimizing manual effort.

Compliance Made Easy

Automatic updates to statutory tables ensure your organization remains compliant with Malaysia's requirements without extra effort.

Full Integration

Fully integrated with Personnel Hub, Time & Attendance, Leave and Claim Management to eliminate data silos and ensure all calculations reflect real-time updates from across the HR system.

Ensure timely, accurate, and compliant salary disbursement, strengthening employee trust while reducing administrative burden.

Module Claim Management

Simplifying Expense Reimbursements

Streamlining expense claim processing with approvals

Managing employee claims can often be time-consuming and prone to errors. Our Claims Management module streamlines the entire process, ensuring faster reimbursements with clear accountability.

- **CENTRALIZED PROCESSING & AUTOMATED POLICY ENFORCEMENT**

Employees easily submit claims in one place, while built-in rules enforce company policies, minimizing discrepancies and preventing over-claims.

- **SMOOTH APPROVAL WORKFLOWS**

Configurable approval routes allow claims to flow seamlessly, reducing delays and ensuring transparency.

- **INTEGRATED WITH PAYROLL**

Approved claims feed directly into Payroll Management, ensuring timely and accurate reimbursements without double entry or missed payments.

Organizations can accelerate expense reimbursements, reduce administrative work, and strengthen policy compliance, while employees benefit from faster, hassle-free claim settlements.

Module Time & Attendance

Accurate Tracking, Smarter Workforce Management

Streamlining expense claim processing with approvals

Effective workforce management begins with precise attendance tracking. KaiZen Time & Attendance module ensures organizations capture real-time data while simplifying scheduling and compliance.

REAL-TIME ATTENDANCE CAPTURE

Integrates multiple methods, from biometric devices to mobile check-ins, ensuring accuracy and instantly available clock-in/out records.

SMARTER SCHEDULING & COMPLIANCE

Supervisors can plan and manage shifts, overtime, and rosters with ease. Built-in rules ensure data aligns with working hours, overtime policies, and statutory requirements.

INTEGRATED DATA FLOW

Attendance data flows directly into Payroll and Leave Management, ensuring correct pay calculations and reducing discrepancies without redundant work.

Organizations gain accurate, automated, and compliant tracking of employee work hours, leading to better efficiency, transparency, and workforce productivity.

Managing budget, recruitment cost with analytics

Finding and hiring the right people is crucial to business success. Our Recruitment module streamlines the process from requisition to onboarding, helping organizations secure top talent efficiently.

03. Smooth Onboarding Integration

Once hired, candidate information flows seamlessly into the Personnel Hub, eliminating duplication and ensuring a smooth transition from applicant to employee.

Module Recruitment & Onboarding

Smarter Hiring, Better Talent Acquisition

01. Streamlined Requisitions & Applicant Tracking

Managers can track job requisitions with built-in approvals. The module manages applications, resumes, and candidate profiles in a centralized database for easy tracking.

02. Cost and Analytics

Recruitment costs, advertising expenses, and hiring metrics are tracked in real time. Analytics help measure time-to-hire, cost-per-hire, and recruitment effectiveness.

Organizations can reduce hiring delays, control costs, and build stronger teams by leveraging an efficient and fully integrated recruitment system.

Module Leave Management

Simple, Compliant, & Transparent

01. CENTRALIZED LEAVE RECORDS & POLICY COMPLIANCE

All leave applications, balances, and approvals are captured in one system. The module supports diverse leave types and automates rules to enforce eligibility, carry-forward limits, and statutory compliance.

02. STREAMLINED APPROVALS

Configurable workflows move leave requests seamlessly from employee to supervisor, with notifications and reminders preventing bottlenecks.

Centralized leave records with policy compliance.

Managing employee leave can be complex, but KaiZen Leave Management makes it effortless, transparent, and fully compliant with company policy and statutory regulations.

03. INTEGRATION ACROSS HR

Connects with Payroll and Time & Attendance, ensuring accurate pay calculations and proper absence tracking without double entry or errors.

Organizations can simplify leave tracking, enhance transparency, and ensure fair policy enforcement while giving employees the convenience of self-service applications.

Module Training Management

Driving Growth Through Learning

Comprehensive training administration with analytics

Employee development is the foundation of organizational success. KaiZen Training Management provides end-to-end administration of training programs, ensuring structured growth and measurable results.

Centralized Course Administration & Calendar

Benefit 1

Maintain a complete database of internal/external courses. HR can build yearly training calendars and manage nominations and registrations with ease.

Attendance & Cost Tracking

Benefit 2

Captures attendance, participant status, and all associated costs, from course fees to travel, giving full visibility of training investments.

Integrated with Competency & TNA

Benefit 3

Training is directly linked to competencies and Training Needs Analysis, ensuring every program addresses actual skill gaps and organizational goals.

Organizations can maximize ROI on learning, strengthen employee capabilities, and cultivate a culture of continuous development.

Module Training Needs Analysis

Aligning Skills with Business Goals

Identify and align training requirements based on skill gaps

Effective training starts with identifying the right needs. KaiZen TNA helps organizations systematically uncover skill gaps and align learning initiatives with strategic priorities.

03. Targeted Training Plans

By pinpointing specific needs, HR can design focused training programs that directly address gaps, ensuring maximum impact from learning investments.

Organizations can invest in the right skills, maximize training ROI, and build a workforce prepared for future challenges.

01. Data-Driven Assessment

Evaluates employee competencies against job requirements, identifying gaps that may affect performance, productivity, or future growth.

02. Seamless Integration & Strategic Planning

TNA works hand-in-hand with Training Management and Competency Management, ensuring every program is aligned to organizational goals. Reports aid leaders in prioritizing critical skill areas and allocating training budgets effectively.

Module Competency Management

Building Skills for the Future

Track Employee Skills, Competencies and Gap Assessment

Strong organizations are built on strong capabilities. Our Competency Management module enables companies to track, assess, and develop employee skills aligned with business goals.

Centralized Competency Framework & Gap Analysis:

Manage organizational competencies and identify skill gaps by comparing current employee competencies with required standards to prioritize development plans.

Personalized Development Plans:

Integrates with Training Management, ensuring targeted learning opportunities are assigned to close competency gaps and strengthen workforce readiness.

Strategic Insights:

Comprehensive reports and dashboards highlight strengths, weaknesses, and trends in organizational skills, supporting data-driven workforce planning.

Organizations can build a future-ready workforce, align skills with strategy, and enhance performance through targeted capability development.

Module Performance Management

Driving Success Through Alignment

Aligning goals and performance with organizational strategy

High-performing organizations align individual contributions with business strategy. KaiZen Performance Management module empowers HR and managers with robust, flexible tools to set goals, evaluate fairly, and nurture growth.

- FLEXIBLE ASSESSMENTS & WEIGHTED SCORING

The module supports up to 99 assessments per year, allowing regular monitoring and feedback. Weighted scoring can be applied so interim reviews contribute appropriately to the final assessment.

- MULTI-APPRAISER & 360° REVIEWS

Performance can be evaluated by multiple appraisers, including peers and subordinates, enabling 360-degree feedback for a well-rounded perspective on employee contributions.

- FULLY CUSTOMIZABLE FORMS

HR can design user-definable appraisal forms, tailored for various employee groups, ensuring relevance and fairness across all roles.

Organizations can drive continuous improvement, foster fairness, and align people with strategy through powerful, flexible, and transparent evaluation tools.

Module Group Insurance & Group Hospitalization

Protecting Employees with Comprehensive Coverage

Managing Group Insurance & Hospitalization benefits

Employee well-being extends beyond the workplace. KaiZen GIS & GHS module helps organizations manage Group Insurance Scheme (GIS) and Group Hospitalization Scheme (GHS) benefits with efficiency and accuracy.

CENTRALIZED POLICY MANAGEMENT

All insurance and hospitalization policies are stored in one place, making it easy to track coverage, eligibility, and renewal dates.

CLAIMS AND PREMIUM TRACKING

The module manages premium payments, claims submissions, and reimbursements, giving both HR and employees a clear view of transactions and balances.

COMPLIANCE AND REPORTING

Built-in reporting tools help ensure compliance with organizational policies and insurance provider requirements, while also supporting audits and financial reconciliations.

Organizations can deliver peace of mind, reduce administrative complexity, and strengthen employee loyalty by ensuring protection when it matters most.

Module Leave Passage

Rewarding Employees with Exclusive Travel Benefits

01. EXCLUSIVE EMPLOYEE BENEFIT

Leave Passage allows employees to enjoy fully paid vacation entitlements, typically covering airfare or travel packages. This benefit is often extended based on seniority or years of service, making it a symbol of recognition and appreciation.

02. STREAMLINED ADMINISTRATION

HR teams can efficiently manage entitlements, track usage, and generate reports to monitor benefit utilization. By automating these processes, the system reduces administrative workload and ensures accuracy.

Elevating loyalty and satisfaction with paid vacation entitlements.

Beyond standard leave entitlements, our Leave Passage module helps organizations recognize and reward employees with valuable travel benefits that foster deep loyalty and job satisfaction.

03. ENHANCING EMPLOYEE ENGAGEMENT

More than a financial perk, Leave Passage promotes employee well-being, strengthens retention, and supports a positive work culture by recognizing contributions in a meaningful way.

With Leave Passage, organizations can offer unique, policy-driven travel benefits that go beyond compliance, creating stronger bonds between employees and the company.

Module Loan Management

Supporting Employee Financial Wellness

Employee loan benefits, enhancing financial wellbeing

Employee financial well-being is an important aspect of overall engagement. Our Loan Management module provides organizations with the tools to administer employee loan benefits seamlessly and transparently.

**Flexible Loan
Types &
Automated
Processing**

Benefit 1

Supports a variety of loan categories (personal, housing, etc.). Built-in rules manage eligibility, repayment schedules, and interest rates, reducing manual intervention and errors.

**Transparent
Tracking**

Benefit 2

Employees can view loan balances, repayment history, and upcoming deductions through self-service access, which builds trust and reduces HR queries.

**Integrated
with Payroll**

Benefit 3

Loan repayments are automatically deducted during payroll processing, ensuring accuracy and timeliness without additional effort for HR administrators.

Organizations can offer meaningful financial support, simplify administration, and enhance employee well-being, making it a valuable benefit for attracting and retaining talent.

Module Loan Interest Subsidy

Enhancing Employee Benefits

Managing employer-subsidized loan interest benefits with accuracy and transparency

KaiZen Loan Interest Subsidy helps manage employer-subsidized interest benefits with accuracy and transparency. This benefit provides employees with meaningful financial relief, strengthening loyalty and promoting long-term retention.

03. Payroll Integration

Subsidized interest amounts are automatically reflected in payroll deductions and reports, ensuring accuracy, compliance, and seamless integration with your Loan Management module.

01. Automated Calculations

Handles complex calculations for subsidized interest amounts and repayment schedules, removing the burden of manual tracking and reducing errors.

02. Clear Employee Visibility

Employees gain full visibility of their subsidy entitlements and repayment details through self-service, ensuring transparency and minimizing HR queries.

Organizations can deliver impactful financial benefits, simplify administration, and enhance overall employee satisfaction as part of a competitive HR package.

Module ESOS Management

Empowering Employees with Ownership Opportunities

Streamlined stock option grants and vesting management

Employee Share Option Schemes (ESOS) are a powerful way to reward and retain talent. KaiZen ESOS Management streamlines the administration of stock option grants and vesting schedules with precision.

Simplified Grant Administration

Easily manage the granting of stock options, track allocations, and monitor employee eligibility within a centralized system.

Automated Vesting Tracking

Automated tools handle vesting timelines, ensuring employees receive their entitlements accurately and on time, without the risk of manual errors.

Employee Transparency & Compliance

Employees can view their option grants and vesting status through self-service. The module provides audit-ready reports to ensure compliance with corporate governance and regulatory requirements.

Organizations can align employee interests with business growth, enhance retention, and reduce administrative complexity in managing stock option schemes.

Module ESPP Management

Enabling Global Share Participation

Facilitating participation in foreign listed company shares

For multinational organizations, Employee Share Purchase Plans (ESPP) provide local employees with access to global ownership opportunities. KaiZen ESPP Management module simplifies administration with international frameworks.

- GLOBAL SHARE ACCESS

Employees can participate in purchasing shares of the parent or holding company listed overseas, often at discounted prices through payroll deductions.

- AUTOMATED CONTRIBUTION TRACKING

The module manages subscription amounts, deductions, and purchase cycles automatically, ensuring accuracy and transparency throughout the process.

- EMPLOYEE EMPOWERMENT & COMPLIANCE

Through self-service, employees can view contribution history and accumulated holdings.

Organizations can extend global benefits, empower local employees, and strengthen retention by fostering a shared sense of ownership across borders.

Module Employee Self Service (ESS)

Empowering Employees, Reducing HR Workload

Reduce HR workload with employee self-service features

Modern HR is about empowerment. Employee Self Service (ESS) module puts control in the hands of employees, reducing administrative burdens while enhancing transparency and accessibility.

ANYTIME, ANYWHERE ACCESS & TRANSPARENCY

Employees can update personal details, view payslips, check leave balances, and track loan records directly from their portal. This visibility strengthens trust and fosters ownership.

STREAMLINED HR PROCESSES

Decentralizes routine tasks (leave, claims, training registrations), eliminating paperwork and speeding up approval workflows.

REDUCED HR WORKLOAD

By shifting routine requests and inquiries to self-service, HR teams are free to focus on higher-value, strategic initiatives that drive organizational growth.

Organizations can empower employees, improve efficiency, and transform HR from administrative to strategic.

Module Mobile App

HR in the Palm of Your Hand

01. ANYTIME, ANYWHERE ACCESS

Employees can apply for leave, submit claims, check payslips, applying for pre-approved overtime, performing daily work clock ins and outs, checking balances, all on the go.

02. MANAGER SELF-SERVICE

Enables supervisors to instantly review, approve, or reject all subordinate pending applications for claims, leave, and pre-approved overtime directly via mobile.

Access HR services anytime, anywhere .

Today's workforce expects flexibility and instant access. KaiZen Mobile App brings the full power of HR services directly to employees' smartphones, ensuring HR is always within reach.

03. SECURE & SEAMLESS INTEGRATION

Built to work seamlessly with the HR system, the app ensures data accuracy and security while delivering a smooth, user-friendly experience.

Organizations can make HR services accessible anytime, boost responsiveness, and empower a more connected workforce.

Module Dashboard Analytics

Turning HR Data into Decisions

Transform HR data into actionable Business Intelligence.

Data is only powerful when it drives action. KaiZen Dashboard Analytics module transforms complex HR data into clear, actionable insights for smarter decision-making.

**Real-Time Insights
& Dynamic
Dashboards**

Benefit 1

Interactive dashboards display live HR metrics, from headcount trends to attrition analysis, enabling leaders to monitor organizational health at a glance. Dashboards can be tailored by department or strategic priority.

**Predictive
Analytics**

Benefit 2

Go beyond historical reports with advanced analytics that help identify risks, forecast trends, and support proactive workforce planning.

**Data-Driven
Decisions**

Benefit 3

By consolidating payroll, leave, attendance and training data, HR Dashboard Analytics empowers management to make faster, evidence-based HR and business decisions.

Turning HR data into strategic intelligence, driving efficiency, foresight, and stronger workforce management.
